2021 – present	B.Tech computer Science at GLA University, Mathura <i>Expected graduation in March of 2025 CPI (till 3rd semester):8.58</i>
2018 - 2020	Senior Secondary School at SVM sr. sec. school, Sultanpur, UP with 86% marks
2016 – 2018	Secondary School at SVM sr. sec. school, Sultanpur, UP with 90.6% marks

PROJECTS

- **Social Media App**

Made a project using MERN stack In this social media app users can login, signup, create a post, follow and unfollow each others, can see a post timeline with his/her and his/her followers posts and can use some other basic social Media app features .

- **Share Prompt App**

Made a project using Next.JS with both front end and back end built using the same, In this project people can sign in using google (gmail) and then they will be able to post prompts(which are to be used on AI sites like ChatGPT ,BING chat etc.) on the site and can copy prompts from the site likewise . The posts can be filtered using search option which are filtered on the basis of tags, username, and matching words in the post.

And you can visit the site here [Share Prompt](#)

- **Portfolio App**

Made a portfolio using **React JS**. It is fully responsive mentioning all my personal details and it has a Contact option using **email Js** .

You can visit it here [Portfolio](#)
